Subject: FY 2012 Self-Assessment of Internal Control

My philosophy is that most employees take pride in their work and want to do the right thing; they just need to know what is expected of them and have the information and tools to allow them to successfully carry out their responsibilities. ***Self-Assessment*** is one of those tools that help to clarify expectations and responsibilities. Next week my department will be emailing the 8th annual Self-Assessment of Internal Control to your business offices. I ask for your cooperation to see that the questionnaire is completed diligently and returned by May 14th.

In the wake of many financial scandals, organizations across all sectors continue to focus on **internal controls** to provide reasonable assurance that operations are effective and efficient, financial reporting is timely and reliable, assets are safeguarded, and applicable laws and regulations are adhered to. The effectiveness of internal control is greatly influenced by management's leadership and commitment to it. Setting the proper tone starts with managers at all levels demonstrating, through their own actions and words, honesty, ethical behavior and a supportive attitude towards internal controls; management cannot act without these qualities and reasonably expect others to behave differently. A supportive attitude includes emphasizing and motivating employees to produce high-quality work, meet deadlines, follow prescribed policies & procedures, communicate important information to those that need it, protect assets from waste, fraud or abuse, and promptly resolve errors or problems.

In closing, I express my appreciation to the Offices of the Secretary of Administration and State Auditor and to the many dedicated employees across state government for their continuing support and efforts to strengthen the State's internal control system.

Department of Finance & Management Self-Assessment of Internal Control

Mission Statement

The mission of the ***Internal Control Section*** is to provide State agencies and departments the objective resources, guidance and recommendations to improve the State's financial operations and system integrity. Through a combined effort of evaluation, communication, cooperation and education, we will work toward improving operational efficiency, enhancing internal controls and ensuring compliance with published bulletins and procedures.

Self-Assessment of Internal Control

Internal Control Overview

Definition: Internal Control is a process integrating the activities, plans, attitudes, policies, and efforts of the people of a department working together to provide reasonable assurance that the department will achieve its objectives in the following categories:

- Effectiveness and efficiency of operations;
- Reliable financial reporting;
- Compliance with applicable laws and regulations.

Fundamental Concepts:

- Internal Control affects every aspect of a department...its people, processes and infrastructure.
- Internal Control is dependent upon people and will succeed or fail depending on the attention people give to it.
- Internal Controls are cost-effective and make sense within each department's unique operating environment.
- Internal Controls are not stand-alone practices; they are woven into day-to-day activities and responsibilities of managers and staff.
- Internal Control provides reasonable assurance, not absolute assurance.

COSO's Five Interrelated Components:

Control Environment: The control environment sets the tone of the department and influences the effectiveness of internal controls. Control environment factors include the ethical values and integrity of the people, management's philosophy and operating style, a commitment to competence, and the organizational structure of the department.

Risk Assessment: Risk assessment is the identification, analysis, and management of risks relevant to the achievement of the department's goals and objectives. Risks include internal and external events or circumstances that may occur and adversely affect the department's operations.

Control Activities: Control activities are the policies, procedures, and practices that help ensure management directives are carried out. Control activities help identify, prevent or reduce the risks that can impede accomplishment of the department's objectives. They include a range of activities as diverse as approvals, authorizations, separation of duties, documentation, reconciliations, supervision, and safeguarding of assets.

Information and Communication: Pertinent information must be identified, captured and communicated in a form and timeframe that enables people to carry out their responsibilities. Effective communication also must occur in a broader sense, flowing down, across and up the department.

Monitoring: Internal controls systems need to be monitored to assess the quality of the system's performance over time. Monitoring occurs during the course of normal operations and through separate evaluations and includes review of the department's activities, systems, and transactions to determine whether controls are effective.

Department of Finance & Management Self-Assessment of Internal Control

Questionnaire Instructions

The **Self-Assessment of Internal Control Questionnaire** is a review of the internal policies and procedures in each department. The questionnaire is designed to help you identify risk and eliminate considerations of risk that do not apply to your department. The questionnaire serves as management tool for your department in evaluating how well risks are being addressed through current control policies and practices. It is designed to raise awareness of certain issues and encourage further analysis and discussion. The questionnaire will also help the Department of Finance & Management identify best practices to share with departments.

Again this year is an option for the Appointing Authority to electronically certify and submit the Excel version of the questionnaire via email. If electronic certification is used, (1) the box on the certification form must be checked **and** (2) the file must be **submitted directly from the appointing authority's email account**.

The Department of Finance & Management requires that the questionnaire be completed, certified by the appointing authority, and returned by Monday, May 14, 2012 to:

Kevin Gilman
Financial Operations Division - 4th Floor
Dept of Finance & Management
109 State Street, Montpelier, VT 05609-5901

Email: kevin.gilman@state.vt.us

The questionnaire consists of seven (7) sections:

- 1. Procurement and Accounts Payable - 66 questions** [2 new questions]
 - Addresses purchasing activities, invoice processing, petty cash, and payroll.
- 2. Accounts Receivable and Cash Receipts - 26 questions**
 - Addresses the treatment of revenue and amounts owed the State, the handling of cash receipts (currency & checks), and the management of external bank accounts.
- 3. Fixed Assets - 18 questions**
 - Addresses the management and accounting treatment of fixed assets.
- 4. Inventory - 9 questions**
 - Addresses the control and tracking of significant inventories; does not apply to items such as office supplies, computers, or fixed assets.
- 5. Subrecipient / Federal Grants Monitoring - 9 questions** [1 new question]
 - Addresses compliance issues pertaining to federally funded grants.
- 6. State Grants Monitoring - 4 questions** [New Section]
 - Address compliance issues pertaining to state funded grants.
- 7. General Elements of Internal Control * – 46 questions** [3 new questions]
 - Addresses the five interrelated components of internal control as identified by the COSO model: control environment – risk assessment – control activities – communication & information systems – monitoring.

* This section should be answered from a department-wide perspective.

Self-Assessment Instructions

In completing this questionnaire we expect you to consult with other members of your department in order to provide as comprehensive and accurate responses as possible. Responses should be based upon **current practices**, not on what the department thinks the answer should be, and not on what the department intends to implement in the future. For the purpose of this questionnaire, "Department" means any discrete agency, department, office, board or other administrative unit with a designated general ledger business unit number. We strongly recommend a single unified response for each department. However, if there are smaller discernable areas within your organization with separate and distinct operations, you may complete multiple questionnaires as appropriate; please identify those discernable areas on each response.

Questions are phrased so that a "YES" answer indicates a control strength and "NO" answer indicates a possible weakness. It is not expected that a questionnaire will have all "YES" answers even if internal controls are adequately addressed. Answering many of the questions will require professional judgment and we recognize that a "YES" answer does not imply absolute assurance. Following are some guidelines to keep in mind when completing the questionnaire:

- Please try to limit the response of "N/A" to only those questions that are clearly not applicable to your department; just because the control activity referenced in the question is not in place in your department, does not necessarily signify that the question is not applicable.
- For questions that pose "*Does the department have written procedures...*" only respond "YES" where there are department specific written procedures; do not answer "YES" if you are only referring to a statewide policy (e.g. VISION Procedures or Administrative Bulletins).
- To assist departments with completing the questionnaire, [hyperlinks](#) have been added to many questions to facilitate review of referenced documents or websites.
- In responding to the questions we recommend using the following criteria:

YES: When the issue addressed is widely in place throughout your department.

NO: When the issue addressed is not in place or only in a very limited scope.

N/A: Use only when the issue addressed is "not applicable" to your department.

[**Note:** Questions answered "YES" and "NO" will be marked "NO" for compilation & scoring purposes.]
